EXECUTIVE SUMMARY

Dynamic and motivated CSE undergraduate student with a strong foundation in software development and a keen interest in **networking**, **cyber security**, and **high-performance computing**. Proficient in frontend development using **Flutter** and experienced in web technologies such as VueJS and **Svelte**, I have successfully developed projects, including a Zakat and Donation Platform and a Smart Haat web application. With solid programming skills in **C**, **C++**, and **Python**, alongside machine learning and deep learning, I am eager to contribute to software development teams, delivering high-quality, user-centric solutions that address real-world challenges.
